

When it comes to running a profitable, smooth practice-short wait times for patients and no excessive paperwork-Medflow has you covered. Our Practice Management System (PMS) powered by ManagementPlus streamlines the tasks that you don't have the time or desire to worry about, but that really make a difference in your patient and ultimately in your profits. We help you with patient registration, booking appointments, insurance verification and eligibility, and more.

ManagementPlus PMS is your answer to everything you need to run an efficient, profitable practice. Our systems streamlines your appointments, maximizes patient flow, customize superbills, provide time clock staff, and more. ManagementPlus PMS boasts an efficient 98 percent first-time claims acceptance rate, user-friendly interface, and 96% live call ratio with a US-based staff-stats that are unmatched in the industry.

## Features:

**Scheduling** consolidated and effectively organized to maximize the number of patients on a given day. Our resource-based scheduling allocates technicians, rooms, and equipment correctly. With ManagementPlus PMS, organized and profit-driven scheduling starts now.

**Front desk modules and highly-efficient coding and billing systems** that reduce your A/R days to fewer than twenty and free up your cash flow. Created by healthcare financial professionals, our tools help you verify insurance and collect copays, ensure correctly coded and clean claims, reduce denials, and make sure your collections are timely and accurately.

**Business intelligence feature** empowers practices to manage a more profitable operation, generating reports that assist with payer contracts, financial forecasting, benchmarking, and more.

## MDoffice PMS

MD office practice management system is built for ophthalmic practices just like Medflow EHRs. It helps you do everything from booking appointments, checking patients in and out, and following up with billing and reimbursement from insurance companies. The scheduling function helps you eliminate patient waiting, allowing you to make the best possible use of your practice. The registration function lets you register patients on the computer, saving time,

We are leaders in the ophthalmology EHR marketplace. It takes a tenacious, progressive team to not only survive, but to be able to thrive for over 15 years in the eye care industry. We deliver the most dependable Meaningful Use and HIPAA certified eye care EMR solutions.
