Products & Services

SRS Patient Portal

Integrated with **SRS EHR (ehr)**, the SRS Patient Portal enhances office workflow and decreases costs by leveraging the power of patient self-service. The SRS Patient Portal delivers cutting-edge technology and a patient-friendly user experience.

- [\(assets/images/products/srs-patient-portal.jpg\)](#) Transform your practice and reduce staff workload by encouraging patient self-service.
- Reduce overhead expenses by shifting data entry from staff to patients.
- Showcase your technological state-of-the-art practice to your patients and colleagues.

Streamline workflow and decrease costs—Accept appointments and other routine requests online

The SRS Patient Portal is fully configurable to collect the most common patient requests directly through a secure online interface.

- Streamline staff workflow by accepting virtually any request online, including appointment requests, prescription refills, billing questions, and other patient inquiries.
- Increase process efficiency and the productivity of your front office by collecting the exact information your practice needs.
- Improve patient satisfaction by delivering an outstanding modern patient experience.

Enhance efficiency and improve patient experience—Streamline the patient registration process

When patients fill out their demographic and medical history forms online, front-office efficiency shoots up, and the staff can finally focus on the patients instead of the paper.

- Quickly and efficiently review forms with superior legibility.
- Dramatically enhance patient experience.

Receive payments quicker—Collect payment online

The SRS Patient Portal empowers your patients to pay their bills quickly and easily through a secure payment interface customized to your practice.

- Collect patient payments quicker and with greater efficiency.
- Decrease overhead expenses by eliminating time-consuming credit card processing phone calls.
- Provide a "safe" environment for overdue patients to remit payment free of embarrassment.

Increase patient satisfaction—encourage patient engagement

When physicians engage patients in their healthcare, it is a win-win.

- Empower patients to actively participate in their health care.
- Leverage a comprehensive, user-friendly patient portal that supports 24/7 communication with your practice.
- Build experience with a patient portal—this will be critical in Stage 2 and Stage 3 of meaningful use

SRS Patient Portal is powered by Omedix
