The solution you've imagined is here. Medflow 2.0 is a completely new cloud-based electronic health records system. A perfect evolution in software, Medflow 2.0 delivers an intuitive state-of-the-art solution combining modern cloud technology with Medflow's proven expertise in the eye care industry. This revolutionary software was created with ideas, input and insights gleaned from industry leaders across the country and our own 16 year eye care history. Offering speed, efficiency, and flexibility when you need it most, the new Medflow 2.0 is the first Ophthalmology EHR designed not only to keep up with your busy eye practice but to make you faster.

Single screen exam – for direct access, swift navigation and rapid data entry

Physician dashboard – homepage keeps you connected anywhere, anytime

**Patient dashboard** – complete chronologic display of all relevant historic data

Vertical menu bar – the menu gives you one-click access to any chart area

Patient Portal software your patient's will love

Effective, patient engagement is the foundation for running a successful, high-performing eye care practice. Our cloud-based, patient engagement service focuses on patient care by significantly reducing

the requirements for Meaningful Use and more!

Appointment requests – Patient can manage open appointments and make additional appointment requests anytime.

Medication refills – Patient always has an accurate printable list of active medications and can request refills as needed.

Amendment requests – Patient can communicate directly to staff with any health changes or demographic changes.

Patient education – Medflow 2.0 will automatically send relevant patient education material based upon a patient's active problem list.

Billing services proven to get you paid more, faster

Conventional billing systems give you just basic software. Medflowvision delivers cloud-based software with an experienced network and a team of experts to assist you with back-office services. We take on your most difficult office tasks like claim submission, follow-up, denial management, payment posting and more – helping improve your bottom-line, quickly and efficiently.

On an average, our clients experience 15%-30% reduction in AR Days

Average improvement in collection is 5%-10%

Efficient submission of claims within 24 hours of receipt of documents

Shorter collection cycle

Detailed and periodic reporting

Posting of account within 24 hours

Dedicated Account Manager
